

Thematic Icons

MHC Historical Atlas Project

There are three sizes of thematic icons:

Navigation
Breadcrumb
Page

Navigation is the smallest, designed to fit along the side of the page, inobtrusive but visible

Breadcrumbs are larger. They are designed to be more visible along the top of the page.

Page icons are designed to be mini headers to set off the text below them from the rest of the page.

Each icon is named according to the theme it represents. The word "color" in the icon name represents the background color for the icon: either green or brown depending upon the background where it is used.

Theme	icon name	navigation icons	breadcrumb icons	page icons
Maps	maps_color.gif			
Archive Material	archive_material_color.gif			
Student Life	student_life_color.gif			
Introduction	introduction_color.gif			
Campus Environment	campus_envIRON_color.gif
