

## Resource Tools

### Free Campus-wide Access to Leading Environment and Energy Publication

CE will now offer access to new resources for students and faculty that will enable them to engage in the most up-to-date news and information on energy, environmental, and climate policy online. Publications including, Greenwire, Energy and Environment Daily, and Climate wire, are provided by E&E Publishing, a leading source in comprehensive, daily coverage of environmental and energy policy and markets and will be available through the MHC library.

Access online through MHC network at  
<http://www.eenews.net>

Environment & Energy Publishing (E&E) is the leading source for comprehensive, daily coverage of environmental and energy policy and markets. Center for the Environment’s goal is to keep students informed on the most complete and up to date news and information in the field of Environmental Studies.

“Designed for policy players who need to know what’s happening to their issues on Capitol Hill. From federal agency appropriations to comprehensive energy legislation, E&E Daily is the place insiders go to track their environmental and energy issues in Congress.”

“The one-stop source for those who need to stay on top of all of today’s major environmental and energy action. With an average of more than 20 stories a day, Greenwire covers the complete spectrum, from electricity industry restructuring to Clean Air Act litigation to public lands management”

E&E’s latest publication, ClimateWire, is designed to bring readers unmatched coverage of the debate over climate policy and its effects on business, the environment and society.

“A late afternoon roundup providing coverage of all the breaking and developing policy news from Capitol Hill, around the country and around the world. A must-read for the key players who need to be ahead of the next day’s headlines”

“For more than 20 years, Land Letter has been the publication professionals have turned to for objective, accurate coverage of natural resource policy issues. From lawsuits over national forest management, to water resource allocation in the West, Land Letter is the source all sides turn to for clear, timely, objective information. “

## VITAL SIGNS

GLOBAL TRENDS THAT SHAPE OUR FUTURE

Students will also be able to access *Vital Signs Online*, an interactive, subscription-based tool, put together by the Worldwatch Institute, which provides hard data and research-based insights on the sustainability trends that are shaping the global future. This tool will allow students to examine trends in energy and transportation, food and agriculture, global economy and resources, and population and society.

Worldwatch Institute is an independent research organization trusted by opinion leaders around the world for its accessible, fact-based analysis of critical global issues. <http://vitalsigns.worldwatch.org/>
