

What Services are provided by the Mount Holyoke College Health Services?

If you are sexually assaulted, there are a variety of services that the Health Center can provide. All the services are covered under the college health insurance.

If you do not have the college health insurance plan, there may be lab or medication charges to your general bill. If cost is an issue, a payment plan could be worked out.

**No Bills Are Sent Home!
All services are private and
confidential.**
