

Liaison Officer

The liaison officer is a resource that is available to the Hampshire College community, to help address issues of concern that involve public safety, crime prevention and conflict resolution. You can contact the liaison officer anytime so we may address your concerns. Together we can work to understand the issue at hand and provide some meaningful, not just short term solutions to problems.

The campus police department offers programs that can be arranged in your residential area by request. We make these programs very accessible to you by coming to your location.

Offered Programs

- **Alcohol Awareness:** A presentation is given on the effects of alcohol and the laws and consequences. Fatal Vision Goggles are used as part of this program.
- **Operation ID** (laptop engraving): A program can be arranged in a common space at your location. You may voluntarily engrave an identifying mark on your property, which will make it less desirable to a thief, and help police identify the owner if it is recovered from theft.
- **Hall Talks:** Social gatherings where members of the area can ask questions, and build a working relationship with the department. Please contact your liaison officer if you would like a dorm talks in your area.
- **S.A.F.E.** (Self-defense workshop) offered as a one hour self-defense program to educate and share vital information about personal safety to the community. The S.A.F.E. program is an introductory to a more advanced self-defense training program. Your liaison officer can assist you with getting an instructor to come to your location.
