Mount Holyoke and Smith College hosted the first facilities in the U.S. to produce women officers in the armed forces.

Ever wonder where Live Action Role Playing (LARP) came from? Faculty meetings! Back in the day MHC’s fearless scholars, bored of just voting, opted for full costume battles to arrive at important decisions. **Forever fowl** Due to popular demand for his immortality, LITS and the Bio department have partnered to build a secret cloning facility to ensure there will always be a Jorge on campus. Rumors abound as to the exact location of the lab, though a faint smell of zoo, sound of honk, and shouts of “it’s alive!” have been noticed in the vicinity of the library tower...

**Introducing the Possum Tea** Due to over-scheduling, the bunnies will not grace us with their presence at this spring’s study break tea. In their place, possums will come to LITS to provide comfort, joy, and demonstrations of near-catatonic napping.

**Ghost in the machine** Noting a deplorable lack of haunting in the library, the ever-progressive Ghost of Mary Lyon has possessed LITS’ new telepresence robot. She can be seen rolling through the halls intoning “Go forward, attempt great things!” in an encouraging yet eerily menacing manner.

**Chutes and ladders** Due to repeated mechanical issues, LITS has agreed to replace the South Stacks elevator with a combo ladder and twisty slide. This people-powered solution will simultaneously help everyone to go green, stay fit, and channel their inner child.

**Tardis takes off...into a float tank!** We’ve converted the Tardis/cell phone zone into a new isolation chamber that will sensory deprive you back into a positive headspace so you’re refreshed and ready to take on all of your end of semester tasks! Worried about finals and papers? Never Fear / Float!

**New Silverman Contest rules** In an effort to democratize next year’s competition, the 2017 Silverman contest will be open to all creatures at MHC and all entries must be submitted in MS Paint. The winning work will become the default screen saver on campus computers.

**Biblio Tinder** LITS is pleased to announce a new service for matching you with the book of your dreams! Decide if you like a book by its cover, whether or not your friends have read it, how far into the stacks you have to walk to retrieve it, etc. Don’t be surprised if sometimes a book swipes right on you! (LITS not responsible for consequences of literary-induced epiphanies.)
